Learn how to correctly identify notes on the fretboard of any musical instrument with Fretboard Warrior, the best guitar application on the market. The application features a nice and easy interface that makes learning easy and fun. You can save the progress of any session you start, so you won't have to start over again when you close the application. Fretboard Warrior comes with different levels for guitar students. All you need to do is to run a tutorial, then select a level that suits your skills. Once this is done, the application will start and you will be presented with a virtual fretboard and the specified number of notes that matches each dot displayed on the virtual fretboard. You can listen to a brief sound that you need to identify, then select a note that matches the sound. The application will display what you selected and also the number of wrong answers that you get, so you can write them down. For each note, the application will also tell you what it is called, what it sounds like and even what string it's played on. If you get some wrong answers, you can try again, you'll get a new session and a new set of notes.NASA wins human spaceflight contracts HOUSTON — NASA has been awarded two contracts to continue its plan to fly astronauts to the International Space Station (ISS). The space agency said it has awarded a \$2.5bn deal to Boeing to continue flying the space shuttle program. The new arrangement will provide a backup option for manned space flights, after the space shuttle was retired in 2011. The second contract, worth \$3.9bn, will replace the shuttle with commercial crew vehicles. Boeing will develop and fly its Commercial Crew Transportation System to carry astronauts to the ISS, and SpaceX will build and fly its Dragon capsule. These contracts follow the successful return of the space shuttle to flight in May after the tragic loss of the Columbia space shuttle in 2003. The contracts, which will see crews start flying to the ISS in 2017, will see NASA save up to \$500 million annually per flight, the space agency said. “These contracts help get us to low-cost, routine access to space and enable us to fly crews to the space station at least once a year,” said NASA Administrator Charlie Bolden. “Our commercial crew partners will develop and flight-test their spacecraft to ensure that we have the capability to get crews to orbit safely.” Bolden said 09e8f5149f

In this application, you have to pick out the notes on a guitar fretboard, that is, the lines of the fretboard that mark all the different notes that can be played on an electric guitar. The application simulates a chord that you need to play in order to display the notes on the fretboard. Your aim is to choose a correct note that matches the chord. In order to perform this musical lesson, you have to press the keys that are colored blue, in a format of letters that are similar to the ones on a guitar: A, D, E and so forth. Not every note has the same color, as you can see below. In order to pick a note, you have to press its color. When you get it right, a bell sounds and the letters change to red, which means that you have incorrectly tried to pick a note. Once you have correctly chosen a note, you will not hear the bell anymore and will automatically move to the next note. In order to try your hand at picking notes, you can advance in the game by going through several rounds. Each round lasts from seconds to minutes, so the time needed to master the application will depend on the period you select. Fretboard Warrior Requirements: In order to play the application, you need: * Adobe Flash Player * Internet Connection With this software, you will find all the instructions you need in order to use the application. Fretboard Warrior is a great application if you are the type of student who wants to go through some easy exercises, but you will have a hard time mastering the application if you don't spend some time practicing, day by day, in order to enhance your skills. Fretboard Warrior is a software that can be used to learn the fretboard much easier, but don't expect to pick up guitar the next day and start jamming. Fretboard Warrior will help you to break down chords and notes, one at a time, and even practice simple riffs, but the application will never be a substitute for memorizing the structure of the fretboard. If you're not an experienced guitar player, Fretboard Warrior will surely impress you with its interactive features, but if you have been playing guitar for a long time, the application will not be enough to help you master the instrument. With this application, you will be able to familiarize yourself with the structure of the fretboard, one note at a time. Fret

Learn to play the guitar without looking at the book, simply by pointing and clicking at the notes on the fretboard with your cursor. Pave the way to improve your guitar skills. Play for notes, arpeggios, chords, scales, modes and riffs. In this tutorial we'll go through the basic concepts of learning and playing the guitar without looking at the book. The principal focus will be on the fretboard. Every note in your playing is mapped on a specific fret along the fingerboard. Moreover, the fretboard has 8 frets and 12 half-steps. The notes are keyed to the frets using black dots that define the space between each fret. The frets are numbered from 1 to 12, while the spots are numbered starting from the neck to the body. The musical scale is also divided into an octave of 8 half-steps. In this tutorial, we'll cover the most relevant concepts about this musical instrument. First, we'll go over the basic concepts about notes, frets and half-steps of a guitar. Next, we'll go over the musical terms and scales. The following tutorial will be a work in progress. If you are a beginner, you should get used to the instructions. If you are an advanced guitar player, you can skip to the next tutorial.
