This is the first service for the digital world that guarantees your wishes are seen and fulfilled. From this moment on, we will do our best to support you in a rather difficult situation. You can be sure that the procedure we have set up is as comfortable and transparent as possible. Our management team is ready to welcome you in order to discuss your needs. We will begin with the declaration of your wish, presented to us with the necessary documentation. Having fulfilled this first requirement, we will transmit it to the competent authorities so that your wish can be legally recognized. Then, we will send our account manager to your home to monitor your will until its fulfillment. Once this legal process is completed, we will contact the person chosen by you and inform him/her of the news. Let's begin: Register and you'll have the benefit of the personalized account. All our members have their own, specific accounts, with all the advantages that they need in order to express their wishes as they wish. A novel role for Glucose Transporter 1-mediated Glucose transport in Alzheimer's Disease. Alzheimer's disease (AD) is a devastating neurodegenerative disorder of the central nervous system characterized by extracellular deposition of amyloid- $\beta$  peptide (A $\beta$ ) and intracellular accumulation of hyperphosphorylated tau protein (p-tau) in neurons. Despite being one of the most intensively studied diseases
